### ERRATA and Replacement Notes MapTEACH DVD Version 2.1.2 (Last edited 6/27/11)

- **GPS\_03\_V3\_Local\_Field\_Trip\_JR.pdf (Mac)**– although the (yellow) Garmin eTrex GPS units originally used in this lesson still work well on Macs, they did not work well with PCs. Consequently, we also are now supporting use of (blue) Garmin eTrex Legend H GPS receivers that work well on Macs and PCs. This document is the Mac lesson. It addresses changes in the data download process and csv file creation process when using a Legend H. It also addresses minor mistakes found in wording and graphics in Version 2. (Updated to *GPS Lesson 3 Version 3* on 6/27/11).
- **PC\_GIS\_Lessons\_Draft.pdf** – The document containing PC GPS Lessons 1-13 has been renamed PC\_GIS\_Lessons\_Draft.pdf. GPS Lesson 3 has been removed from this document and placed in the ‘Errata’ folder. This document replaces the PC\_Lessons\_Draft.pdf.
- **PC\_GPS\_03\_V2\_Local\_Field\_Trip\_JR.pdf** - is now located in the ‘Errata and Replacement Lessons’ folder. This document replaces the first lesson in the old document PC\_Lessons\_Draft.pdf.
- **PNL\_Lesson\_5\_V2.pdf** -this lesson revision employs use of local place names maps and describes the process for finding coordinates using both Google Earth and Swath Viewer. Since TopoZone, is no longer available for free, the change to other Internet applications was necessary.
- **Technical\_Appendix\_A\_V3.1.pdf**– this revision merely updates the URL for Alaska Mapped
- **GIS\_Lesson\_5\_Regional\_Relief\_Data.pdf**- although the original shaded relief data work well on Macs and still exist in the Base Data folder, they do not work well on PCs. Consequently, more compatible shaded relief data files have been added and are described in this document. Information applies to pages 274 and 275 in original MapTEACH lessons.
- **Changes to the MapTEACH\_Data\_WGS84 folder:**  
Changes have been made to the files in the **Base Data** folder and the Landscape folder. The easiest way to change this is to replace your entire **MapTEACH\_Data\_WGS84 folder** by deleting your current **MapTEACH\_Data\_WGS84** folder and replacing it with the **MapTEACH\_Data\_WGS84** folder which is located on the new DVD (Version 2.1).

The MapTEACH\_Data\_WGS84 folder on this DVD includes the following changes:

- **Landscape folder:** The Landscape folder has been replaced. The new folder includes files omitted from the previous version.
- **Base Data folder:** The shaded relief files listed below were added to the Base Data folder. These files can be used with AEJEE on a Mac, they will not work with the PC version of AEJEE PC:
  - Shaded\_Relief\_Central.jgw
  - Shaded\_Relief\_Central.jpg
  - Shaded\_Relief\_Central.jpg.xml
  - Shaded\_Relief\_Central.prj
  - Shaded\_Relief\_Central.rrd
  - Shaded\_Relief\_Northeast.jgw
  - Shaded\_Relief\_Northeast.jpg
  - Shaded\_Relief\_Northeast.jpg.xml
  - Shaded\_Relief\_Northeast.prj
  - Shaded\_Relief\_Northeast.rrd
  - Shaded\_Relief\_Northwest.aux
  - Shaded\_Relief\_Northwest.jgw
  - Shaded\_Relief\_Northwest.jpg
  - Shaded\_Relief\_Northwest.prj
  - Shaded\_Relief\_Northwest.rrd
  - Shaded\_Relief\_Southeast.jgw
  - Shaded\_Relief\_Southeast.jpg
  - Shaded\_Relief\_Southeast.jpg.xml
  - Shaded\_Relief\_Southeast.prj
  - Shaded\_Relief\_Southeast.rrd
  - Shaded\_Relief\_Southwest.aux
  - Shaded\_Relief\_Southwest.jgw
  - Shaded\_Relief\_Southwest.jpg
  - Shaded\_Relief\_Southwest.prj
  - Shaded\_Relief\_West.aux
  - Shaded\_Relief\_West.jgw
  - Shaded\_Relief\_West.jpg
  - Shaded\_Relief\_West.prj
- **Win\_2000\_XP\_Installation\_Appendix\_PC\_1\_1.pdf**
  - Section 'G' on transferring the MapTEACH data to your computer has been replaced. This section was omitted from the original version. Additionally, the 'Installation and Preparation Overview,' found on page 1, is now accurate. This document replaces the earlier version.
- **Vista\_Installation\_Appendix\_PC\_2\_2.pdf**
  - Modified section E "Install AEJEE" to reflect additional steps needed to correctly apply settings using the *Compatibility Wizard*.
  - The section entitled "C: Check and maintain student computers" has been removed. Since the directions and text for Section "C" were deleted, the letters for all subsequent sections of this document were moved up one letter.
  -

- Known typographical errors have also been fixed. This document replaces the earlier version.
