Site name: Howard Luke's camp

Comment: I choose this picture because it is about my project and it is a good picture of Howard Luke's Camp. On the other side of the river is Chena bluff. The last reason why I choose this picture is because this use to be the old Chena village and where he tells his story. Howard also said that this use to be one of the biggest villages at one time. The Athabaskan name was Ch'eno' Xudochaget.
